## 5D WHEEL ALIGNMENT

### Features :

- Software online update
- Database online update
- Support network cable
- Support Wifi
- Easy to Calibrate
- Run in android phone or pad
- Compatible with any lift
- TV & Phone in same screen
- Ceiling Cameras
- Light wight Targets

### Specifications :

Measurement	Accuracy	Total Measuring Range
Caster	5' ±	± 20°
King pin	5' ±	± 20°
Partial toe	1' ±	± 20°
Camber	1' ±	± 10°
Set-back	2' ±	± 6°

## TYRE CHANGER

Model	N-830
Power	1.1/0.7kw
Voltage	220V/380V/110V
Working pressure	8-10bar
Working noise	<70db
Outside size	11" -22"
Inner size	12" -24"
Net wight	185kg
Gross weight	205 kg
Packing size	

## WHEEL BALANCER

### Features :

- Seven segment Display.
- Fast Cycle Time of only 7 Seconds.
- 4 LED used for weight fitting position indication.
- High frequency buzzer provided for weight Position indication.
- Easy Calibration using master weight.
- Auto Breaking
- A Different Alloy / Sticker mode of Balancing
- Easy parameter setting.
- PC membrane keypad for long life.
- High Quality provided for better quality.

### Specifications :

Model	N-750
Power	0.25kw
Voltage	220/380/110V
Balance speed	<180 rpm
Cycle time	7S
Rim size	12-24"
Max tire Weight	70kg
Net wight	130kg
Gross weight	146kg
Packing size	1050*700*1150

## Rim Repair System

## RUN FLAT

## Nitrogen Inflator

### Different Models of Nitrogen inflator

- Semi Automatic
- Wall Mounted
- Fully Automatic
